

Building Control Service Delivery **Plan 2022-2023**

CERTIFICATE NUMBER 0072

ISO 9001

Overview of the service

The principal role of Building Control is to provide a service to the construction industry, residents, other professionals and internal customers. It is a statutory service, which administers legislation relating to the built environment and operates in such a manner as to establish and maintain a high reputation for both itself and the Council. It therefore aims to provide a responsive service, which is of a consistently high standard and gives value for money to its customers.

The Service has two elements which are described as fee earning and non-fee earning work. The building regulation aspect of the service is income generating and in accordance with The Building (Local Authority Charges) Regulations 2010 and CIPFA (Chartered Institute of Public Finance and Accounting) accounting requirements. This aspect of the business must be self-financing over a continuous three-year rolling period. The non-fee earning part of the Service is funded by the Council tax payer and includes dealing with dangerous structures, enforcement, demolitions, support for the safety advisory groups and consultancy services to other Council services.

1. Fee earning work (Income generating)

- Validating building control applications, checking applications for compliance, issue statutory notices, carrying out site inspections and issuing completion certificates. All within statutory time limits.
- Providing technical and professional guidance to members of the public, external agencies and other departments within the Council.

2. Non fee earning work (Council funded)

- Responding to dangerous structure reports including co-ordinating the response of external bodies such as structural engineers or statutory undertakers,
- Process demolition notices
- Carry out enforcement action
- Provide technical and professional support to the safety advisory groups and consultancy services and to other departments within the Council.

Local Authority Building Control is subject to significant competition from private sector building control bodies (approved inspectors or AI's) operating both regionally and nationally. This competitive scenario is applicable across all types of developments providing applicants a clear choice between the Local Authority Building Control Service (LABC) and private sector building control Approved Inspector (AI) services. Competition has ensured that the service provided must compete effectively both in terms of level of service and cost. Nationally, there are 150+ registered Approved Inspectors. This number has levelled off in the past couple of years due to insurance issues and the rules and regulation changes coming into force post Grenfell.

The Local Authority retains the statutory duty of the enforcement of the Building Regulations in its area. Approved Inspectors have no statutory authority to perform this function and sites which cannot be signed off by AI's revert back to Local authorities for enforcement. Thus irrespective of workload and income Local Authority must retain a building control service at some cost to the Authority.

The Service is also subject to a continuous programme of both administrative and technical legislative change. This means that management objectives and priorities may change at short notice. The coming year will also see the introduction of a exhaustive set of new validation criteria for surveying staff to accomplish. From April 2023 ALL surveyors across the country will need to be validated for the work they do.

Cost of service

Building Regulation Fee Earning Service

This Service is concerned with determining compliance with Building Regulations by assessing plans and carrying out site inspections at different stages of the building process. Customers are advised of contraventions of the building regulations and how they may be overcome.

Legislation allows prosecution in the magistrates' court for contraventions of the Building Regulations but it is generally used as a last resort where negotiation has failed.

This element of the service's work is subject to competition by the private sector.

The estimated income generation for 2022/23 is £325,000.

Non Fee Earning Work

Building Control provides a number of services which are necessary as part of a local Authority service. These include:-

- **Dangerous Structures.**
- **Enforcement of Building Regulations.**
- **Demolitions.**
- **Registering AI Initial Notices and Competent Person Scheme works.**
- **Process disabled person's applications.**
- **Provide advice to other council services.**
- **Safety advisory group / safety at sports ground.**
- **General pre-application and building regulations advice.**

These elements of building control work do not require payment of a building regulation charge and are not required to be self-financing.

The estimated cost of the non-fee earning work in 2022/23 is £104,650.

Proposed changes and improvements to the existing service

1. Review and build-in resilience due to staff retiring
2. Recruitment of a full-time Senior Surveyor with “in-scope” Level 6 Knowledge
3. Implementation of new fees via a fee review.
4. A revised marketing strategy targeting an increase in market share and looking at an increase in commercial projects:
 - use social media more effectively, particularly Twitter and LinkedIn
 - produce a quarterly digital newsletter
 - attend agents forums

Commitments towards our Vision

Building Control - Service Delivery Plan 2022/23

Performance Measure	Link to Corporate Plan Priority	Target and reporting timescale (i.e. 6 monthly or annually)	Baseline from previous year/output from previous year	Owner and co-owners
To actively market and promote the building control service to maintain market share	Sound Financial Management	Local authority building control (LABC) services used on a large proportion of all applications submitted in the East Cambridgeshire District	77%	Craig Smith – Team Leader Nigel Harper – Senior Surveyor John Jeffery – Senior Surveyor Jeannie Ambrose – Surveyor Darren King – Building Control Admin Support Jarred Parisi – Apprentice Surveyor
		75% of all Building Control applications submitted use Local Authority Building Control		
		Achieve a break-even budget for the fee earning account and be self sufficient	Balanced budget achieved	Craig Smith – Team Leader
		Review/improve the Building Control area of the Council website to ensure the information available is up to date and relevant for all customers	Required Summer 2022	Craig Smith – Team Leader
