Community Transport

Community transport is for anyone of any age who does not have their own transport and who cannot access public transport services easily.

In East Cambridgeshire, the people who use these services are generally older people, those with a disability and those who are isolated because of the rural nature of the district.

Payment may vary from one provider to another. Service users may contribute towards the cost of fuel, join as a member or pay a subsidised cost for the journey. This leaflet provides information on schemes that are run in East Cambridgeshire.

Under 16s must be accompanied by an adult.

Community Car Schemes

Many of the community car schemes provide transport for social and medical purposes, such as GP appointments, opticians, dentists, picking up prescriptions, visiting friends, and shopping.

They can also undertake journeys to visit friends and family in hospital, and outpatient department appointments, although drivers may not be able to wait long for return visits. Ask your local scheme for more details.
