Sulphur dioxide:				
Other(s): (Please specify)				
Source not known:				

		2016/17	2017/18	2018/19 (to date)
<p>Question 3 - Of those stimuluses (identified in your answer for question 2) please list the name of the food product(s) that is believed to have been responsible for causing each reaction for each of the following financial years:</p>	Food product that contained celery:			
	Food product that contained cereals containing Gluten:			
	Food product that contained crustaceans:			
	Food product that contained egg:			
	Food product that contained fish:			
	Food product that contained lupin:			
	Food product that contained milk:			
	Food product that contained molluscs:			
	Food product that contained mustard:			
	Food product that contained nuts:			
	Food product that contained peanuts:			
	Food product that contained sesame seeds:			
	Food product that contained soya:			
	Food product that contained sulphur dioxide:			
	Other(s): (Please specify)			
	Source not known:			

		2016/17	2017/18	2018/19 (to date)
Question 4 - Of those reported incidents (identified in question 1) please categorise the type of food business that caused the allergic reaction by the type of products they typically sell and identify the number of cases associated with that type of premises for each of the following financial years:	American style Takeaway / Restaurant			
	Bakers			
	Bar / Public House			
	Chinese Takeaway / Restaurant			
	Coffee shop / Takeaway			
	Desert Takeaway / Restaurant			
	English Café			
	French Takeaway / Restaurant			
	Fried Chicken Takeaway / Restaurant			
	Grocery shop			
	Indian Takeaway / Restaurant			
	Italian Takeaway / Restaurant			
	Kebab Takeaway / Restaurant			
	Mobile caterer			
	Polish Takeaway / Restaurant			
	Sandwich shop			
	Spanish Takeaway / Restaurant			
	Supermarket			
	Sushi Takeaway / Restaurant			
	Thai Takeaway / Restaurant			
	Turkish Takeaway / Restaurant			
Other(s): (Please specify)				
Source not known:				

		2016/17	2017/18	2018/19 (to date)
