

We are contacting you for a request of information as part of site selection investigations for a new infrastructure project in the Fenland area. Information obtained will support the decision-making process for site selection. We have attached a shapefile representing the extent of the study area within which we are looking for the following information:

- Local landscape designations - Any local information related to landscape character and settlement areas
- New Transport Infrastructure - Any information relating to new transport infrastructure in the area, cycle / bus / train / highways etc
- Open Space – open space areas of public value (including green space, sports and recreation and allotments)
- Green Wedges – open areas around and between parts of a settlement, or settlements, whose primary role is to maintain the distinction between the countryside and built up area
- Tree Protection Orders
- Biological records
- Important hedgerows
- Planned/constructed sites for environmental stewardship opportunities (if known)
- Habitat creation projects – Any information related to habitat creation projects in the area (if known)
