

In 2020, there was some damage to external doors at Portley Hill depot - doors to part of the maintenance section next to the Parks and Open Spaces team. The damage was caused by a council employee driving a forklift truck.

What are the details of what happened?

When did it happen and when was it reported?

What repair was made to the doors?

Please provide any emails about this damage and repairs and any related work orders, invoices and receipts for the repairs carried out.

From what date was the practice put in place that mower checklists would be kept for a year and vehicle checklists kept for three months and any emails or documents in regard to the implementation of and continuing use of this practice
