

As a Freedom of Information request, please can you send me:

1) Details of water supply close to the 3 recently approved BESS facilities in Burwell (ECDC planning refs 17/02205, 19/00155 and 21/00816).

a) How much water will be available to extinguish a fire in the event of a battery failure at one of these sites?

b) Where will this water come from?

c) How will any water used to extinguish a fire be contained so as not to pollute the surrounding environment?

2) Please send details of the Battery Fire Safety Management plans for each of these 3 sites.
