

Please provide the number of households, initially assessed by your local authority as being owed a homelessness duty, between April 2021 and March 2022 where cases were recorded as being homeless on departure from an institution (including 'Custody', 'general hospital' and 'psychiatric hospital'). Please disaggregate data by:

- Month of assessment
- Departure institution 'type' (e.g. 'Custody', 'general hospital' etc)
- Duty decision (e.g. 'living with friends', 'supported housing / hostel', 'private rented sector')

Please exclude any cases which had not received a main duty decision as of 31 March 2022.
