

Further to your information request FOI/EIR 24/25-033, please find your question and our response below.

**Request:**

I would like a list of planning applications submitted to the council for renewable energy projects since 2014. I would like this broken down into the name of the project, the date of application, the type of renewable, the proposed amount of energy that the site would produce and whether the site was approved rejected or other.

**Response:**

Please see attached excel spreadsheet. This includes applications with renewable, solar or photovoltaic or turbine in the proposal text.

To find out the proposed amount of energy that is produced you can find this information in the supporting information for the application. This information can be found using the Council's Public Access and using the reference provided on the spreadsheet.
