

Infrastructure and Strategic Housing Service Delivery Plan 2015-2016

Overview of the Infrastructure and Strategic Housing Team

The Infrastructure and Strategic Housing team comprises 1 full time Infrastructure and Strategy Manager, 1 full time Senior Planning Officer (North Ely) (1 year, fixed term), 1 full time Strategic Housing Enabler (1 year, fixed term), 1 part time Development Contributions Officer (28 hours), 1 part time CIL Officer (22 hours) and 1 part time CLT Advisor (25 hours – 3 year secondment).

The Infrastructure and Strategic Housing team is responsible for three key areas; developer contributions (CIL & S106), facilitating delivery of infrastructure to support growth, including facilitating the delivery of the North Ely Development and enabling the delivery of genuinely affordable housing, in particular helping local communities to develop Community Land Trusts.

Developer Contributions

S106 - The team is responsible for monitoring development for the timely collection of S106 contributions; advising on the compliance of expenditure of S106 contributions; assisting in negotiations of Section 106 Agreements on major developments; and ensuring Section 106 contributions comply with the statutory tests.

CIL - The team is responsible for the administration of CIL once planning permission first permits the development, i.e. once a liability notice has been issued; determining applications for relief; collection of CIL contributions; enforcement of CIL; advising on CIL reviews; producing the Regulation 123 list; and producing the Annual Delivery Plan.

This funding is vital for the delivery of infrastructure across the district and of the Council's Corporate Priorities.

Delivery of Infrastructure

Where new infrastructure is required to facilitate growth, the Infrastructure and Strategic Housing team assist, wherever possible, the relevant stakeholder will deliver such infrastructure. Such assistance extends to project management (whether in whole or in part), advising on developer contributions that could benefit the project, assistance with public consultations and leading on liaison with the relevant statutory body. The team is involved in many of the transport and infrastructure projects identified in the Corporate Priorities.

The Senior Planning Officer (North Ely) is responsible for determining the planning applications for the North Ely development. Collectively, the Infrastructure and Strategic Housing team are responsible for co-ordinating the aspirations for the North Ely Development through effective stakeholder liaison and engagement to ensure, wherever possible, the development accords with the vision set out in the Draft Supplementary Planning Document for North Ely.

Strategic Housing

The role of the Strategic Housing Enabler is to plan and facilitate the delivery of new affordable housing across the district. This is done at a strategic level by developing strategies and policies, contributing to the Councils Local Plan and the strategic housing market assessment of the local area, and securing investment into East Cambridgeshire housing market.

The role also involves identifying the need, type and tenure of housing required on residential sites, both market and affordable housing, and working with the Development Management team to ensure the planning process creates mixed and cohesive communities.

The CLT Advisor assists local people to establish Community Land Trusts (CLTs) by supporting them through the process, providing advice and guidance as necessary. The role also involves marketing CLTs to encourage take up across the district and managing the Councils CLT Grant Scheme.

The total cost of running the Infrastructure and Strategic Housing service:

- Infrastructure: £113,094
- Strategic Housing: £238,538

Please note that these costs do not reflect the recent merging of these services.
