

Summary of current play from information provided by Kirtling & Upend Parish Council

This Summary of Play report has been produced by East Cambridgeshire District Council following the 2012-13 Play Audit on behalf of parish councils to help guide their planning and funding for new or upgrading play facilities.

The report includes details of current provision and any issues highlighted by the Parish Council when completing the consultation. The findings are based on information provided by the parish council during 2012-13 and have been compared to the local planning standards which provide a benchmark on provision that should be available according to population size.

The findings indicate where there may be deficits and will be useful for parishes that are considering any improvements or enhancing play provision to address deficits or growth.

Analysis of existing provision in Kirtling & Upend

There is currently one area of informal open space in Kirtling & Upend and no play areas.

Deficits and surpluses of provision

The audit identifies shortfalls in play provision for toddlers, juniors and youths, with the largest deficits being found in toddler and junior provision. There is also a shortfall in informal open space (0.75 hectares required).

As there is no play facility in Kirtling, the entire village falls outside of the radial travel zone for all play categories.

Consultation and Future Development

At the time of the audit, the parish council advised that a new play area was being considered. Following a survey in summer 2011 regarding the Village Vision, 17% of respondents suggested a play area. The parish council advises that there are small numbers of children in the parish and the cost of a play area may prohibit any plans.
