

Summary of current play from information provided by Lode Parish Council

This Summary of Play report has been produced by East Cambridgeshire District Council following the 2012-13 Play Audit on behalf of parish councils to help guide their planning and funding for new or upgrading play facilities.

The report includes details of current provision and any issues highlighted by the Parish Council when completing the consultation. The findings are based on information provided by the parish council during 2012-13 and have been compared to the local planning standards which provide a benchmark on provision that should be available according to population size.

The findings indicate where there may be deficits and will be useful for parishes that are considering any improvements or enhancing play provision to address deficits or growth.

Analysis of existing provision in Lode

There is currently one play area in Lode and no areas of informal open space.

Deficits and surpluses of provision

The play area in Lode caters for toddlers, juniors and youths.

Lode Parish Council advised that there are sufficient play areas and areas of informal space to meet the existing community need. This is partly supported by the audit findings as there is a surplus of play provision; however the audit identified a deficit of informal open space based upon the planning standard per head of population.

In the consultation response, spaces for activities such as tennis, cricket and football are noted, however these would be categorised as formal open space/sports pitches.

The map identifies that almost all of the houses in Lode fall within the radial travel zone for toddler and junior play provision, some houses in the north of the village along Fen Road fall outside of this area. All houses in Lode fall within the travel area for youth facilities.

Consultation and Future Development

At the time of consultation, the matter play equipment was raised as part of the Parish Plan review.
