

Summary of current play from information provided by Mepal Parish Council

This Summary of Play report has been produced by East Cambridgeshire District Council following the 2012-13 Play Audit on behalf of parish councils to help guide their planning and funding for new or upgrading play facilities.

The report includes details of current provision and any issues highlighted by the Parish Council when completing the consultation. The findings are based on information provided by the parish council during 2012-13 and have been compared to the local planning standards which provide a benchmark on provision that should be available according to population size.

The findings indicate where there may be deficits and will be useful for parishes that are considering any improvements or enhancing play provision to address deficits or growth.

Analysis of existing provision in Mepal

There are currently two play areas in Mepal and five areas of informal open space.

Deficits and surpluses of provision

The play areas in Mepal cater for toddlers and juniors. The parish council advises that there is sufficient play and informal open space provision to meet existing community needs, however there is a deficit in youth provision as there is equipment for this age group and an additional 1.80 Hectares of Informal Open Space is required to meet the local planning standard (based on per head of population). There is a surplus of toddler and junior provision in Mepal.

The majority of the village falls within the radial travel distances of toddler and junior play provision, apart from the east of Witcham Road. The entire village falls outside the catchment area of youth play provision, as there are no facilities available.

Range of Play Experiences

The play area on the recreation field (2A) was updated in 2009/10 as part of the Pathfinder scheme, this added to the range of play experiences available. The parish council advise that the play areas encourage children of different age groups to play together.

Access

Mepal Parish Council advise the play areas in the parish are accessible to people with disabilities.

Consultation

Vast consultation was carried out by the parish council prior to the upgrade of the recreation field play area in 2009. No formal consultation has been undertaken since. At the time of this consultation, the parish council was in the process of updating their parish plan and it was advised that this would be likely to include questions regarding play provision.

Future Development

The Parish Council advises that they wish to carry out the following play developments in Mepal in the future:

- Further development of Lilibet Wood (3E)
- Continued improvement of play area on recreation field (2A)
- Replanting of some trees within the village
- Query East Cambridgeshire District's future intention for play area in Meadow Way (3B)
