Green Flag Accreditation

Huge Congratulations to the team on retaining Green Flag accreditation status. It is reassuring for local people to know our parks and open spaces are being maintained to recognised high standards, ensuring they are clean and safe to use. By continuing to perform sound monthly quality checks on the public open spaces, parks and maintenance service open spaces, the team are able to demonstrate this standard is being consistently maintained.

Assets

The diligent and considered management of ECDC's assets to a high standard by the Open Spaces and Facilities teams ensure the safe enjoyment of our Customers. The work the open spaces and facilities team do is important because documenting and updating any changes or additions to asset management is key to understanding what further actions may need to be carried out. It is also crucial to having a reference point to trace the history of an asset to resolve or address any ongoing issues. As well as ensuring legal compliance and enjoyment for end users it is also crucial to reduce exposure to liability and potential litigation and reputational damage.

Performance Management

The Open spaces and Facilities team do an excellent job and it is important to continue to support their efforts by having a two-way dialogue to assess working practices and together chart a path towards achieving optimal results. Re-structuring and being incorporated within the Trading Company has presented a significant change to how the council operates and the team have risen to the challenge whilst continuing to provide a consistently, fantastic service.
