

Planning Data Retention & Privacy Policy

Introduction

The Local Planning Authority accumulates information from both individuals and external organisations. It also generates a wide range of documents and records.

These documents and records are in several different formats, including letters, emails, reports and legal documents, plans, drawings and photographs. These could be in both hard copy and electronic.

In some cases it is necessary to retain certain documents in order to fulfil statutory requirements and also to meet operational needs.

Premature destruction of documents can result in the inability to defend litigious claims, operational difficulties and failure to comply with the Freedom of Information Act and UK General Data Protection Regulations.

Likewise, it is unreasonable to retain all documents indefinitely. An agreed disposal schedule will enable the Local Planning Authority to maintain sufficient office and electronic storage. Lengthy or indefinite retention of personal information could result in the Local Planning Authority breaching General Data Protection Regulations.

Aim

To give a clear indication to our customers how we will process, store and when and how we will dispose of their information.

To provide a tool to East Cambridgeshire District Council Planning Department to ensure the retention of business information for as long as it is needed, in the most suitable format and enable disposal of information in a consistent and controlled manner. Taking into account the context within which it operates, including legislative requirements.

Scope

This document applies to all information held by the Local Planning Authority.

Retention and Disposal Policy

This Document contains a checklist in Appendix 1, outlining the points which need to be considered when looking to dispose of a document.

In appendix 2 is a full schedule for documents, including the minimum retention periods both recommended and statutory.

Where a retention period for a specific document has expired, a review should be carried out prior to a decision being made to dispose of it. This should not be time consuming and should be straightforward. Consideration should be given to the method of disposal to be used.

Appendix 1

Checklist to be completed before disposing of consultee and neighbour responses

	Yes	No
Is there any ongoing negotiations (S106 or otherwise) on the site?		
Has the development been completed?		
Is there any enforcement case (opened or closed) on the site? If yes would the document be needed in any future prosecution?		
Is there any other reason to retain for planning history for future development of the site?		

Appendix 2

Ref No	Function Description/Purpose of holding	Retention Action	Information to be redacted before publishing online	Disposal technique	Legislation requirement
1	Valid Planning Application submission (including application form, plans and supporting documents & any amendments received) to form Part 1 of the Planning Register	All information to be scanned on receipt. Paper copies disposed of following decisions or receipt of appeal decision, whichever is later.	Applicants telephone and email addresses. All signatures.	Electronic kept in perpetuity.
