

Summary of current play from information provided by Stretham Parish Council

This Summary of Play report has been produced by East Cambridgeshire District Council following the 2012-13 Play Audit on behalf of parish councils to help guide their planning and funding for new or upgrading play facilities.

The report includes details of current provision and any issues highlighted by the Parish Council when completing the consultation. The findings are based on information provided by the parish council during 2012-13 and have been compared to the local planning standards which provide a benchmark on provision that should be available according to population size.

The findings indicate where there may be deficits and will be useful for parishes that are considering any improvements or enhancing play provision to address deficits or growth.

Play Provision and Informal Open Space

The table below identifies all play areas and areas of informal open space in Stretham, using information provided by Stretham Parish Council in September 2012.

Analysis of existing provision in Stretham

There are currently two play areas in Stretham and no areas of informal open space.

Deficits and surpluses of provision

The play areas in Stretham cater for toddlers and juniors; there is no youth provision in the parish or areas of informal open space.

The audit identifies shortfalls in provision for juniors, youths and informal open space; this is based on the planning standard per head of population.

There is a significant surplus of toddler provision in Stretham.

Some aspects of the audit could not be commented on, such as accessibility and consultation with residents, as the consultation was not fully completed by the parish council.

The map identifies that all of Stretham falls within the radial travel distance for toddler provision.

The north east of the village falls outside of the junior travel zone, which includes the school area (Wood Lane and Berry Close).

As there is no youth provision, the entire parish falls outside of any youth travel catchment area.
