

Summary of current play from information provided by Wilburton Parish Council

This Summary of Play report has been produced by East Cambridgeshire District Council following the 2012-13 Play Audit on behalf of parish councils to help guide their planning and funding for new or upgrading play facilities.

The report includes details of current provision and any issues highlighted by the Parish Council when completing the consultation. The findings are based on information provided by the parish council during 2012-13 and have been compared to the local planning standards which provide a benchmark on provision that should be available according to population size.

The findings indicate where there may be deficits and will be useful for parishes that are considering any improvements or enhancing play provision to address deficits or growth.

Analysis of existing provision in Wilburton

There is currently one play area in Wilburton and two areas of informal open space.

Deficits and surpluses of provision

The play area in Wilburton caters for toddlers, juniors and youths. Despite this, the audit identifies shortfalls in provision for all age groups as well as informal open space; this is based on the planning standard per head of population.

The map identifies that the majority of houses in Wilburton fall within the radial travel distance of both toddler, junior and youth play provision.

Some houses along Haddenham Road to the west of the village fall outside of the play catchment area for all age categories. West End, Church Lane and some of Stretham Road fall outside the catchment area for toddler and junior travel.

Some aspects of the audit could not be commented on, such as future development, accessibility and consultation with residents, as the consultation was not fully completed by the parish council.
