

08 March 2021

Dear Committee Members

East Cambridgeshire District Council, 2020/21 Outline Audit planning report

We are pleased to attach our outline audit planning report for the forthcoming meeting of the Finance and Assets Committee. The purpose of this report is to provide the with a basis to review our proposed audit approach and scope for the 2020/21 audit, in accordance with the requirements of the Local Audit and Accountability Act 2014, the National Audit Office's new 2020 Code of Audit Practice, the auditing standards and other professional requirements. It also aims to ensure that our audit is aligned with the Committee's service expectations.

This report summarises our initial assessment of the key issues which drive the development of an effective audit for East Cambridgeshire District Council. We have aligned our audit approach and scope with these. We have yet to complete our detailed audit planning and will report any changes to risks and areas of focus to the next Committee meeting.

This report is intended solely for the information and use of the Finance and Assets Committee and management, and is not intended to be and should not be used by anyone other than these specified parties.

We welcome the opportunity to discuss this report with you on 25 March 2021 as well as understand whether there are other matters which you consider may influence our audit.

Yours faithfully

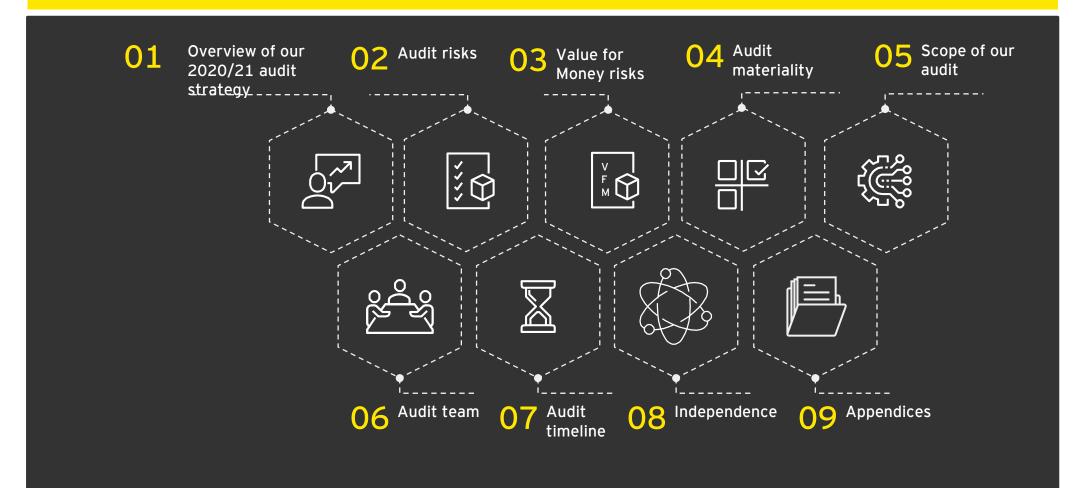

Stall)

Suresh Patel

For and on behalf of Ernst & Young

Contents

Public Sector Audit Appointments Ltd (PSAA) issued the "Statement of responsibilities of auditors and audited bodies". It is available from the PSAA website (https://www.psaa.co.uk/audit-guality/statement-of-responsibilities/). The Statement of responsibilities serves as the formal terms of engagement between appointed auditors and audited bodies. It summarises where the different responsibilities of auditors and audited bodies begin and end, and what is to be expected of the audited body in certain areas.

The "Terms of Appointment and further guidance (updated April 2018)" issued by the PSAA sets out additional requirements that auditors must comply with, over and above those set out in the National Audit Office Code of Audit Practice (the Code) and in legislation, and covers matters of practice and procedure which are of a recurring nature.

This report is made solely to the Finance and Assets Committee and management of the Council in accordance with the statement of responsibilities. Our work has been undertaken so that we might state to the Finance and Assets Committee, and management of the Council those matters we are required to state to them in this report and for no other purpose. To the fullest extent permitted by law we do not accept or assume responsibility to anyone other than the Finance and Assets Committee, and management of the Council for this report or for the opinions we have formed. It should not be provided to any third-party without our prior written consent.

Overview of our 2020/21 audit strategy

The following 'dashboard' summarises the significant accounting and auditing matters outlined in this report. It seeks to provide the Audit Committee with an overview of our initial risk identification for the upcoming audit and any changes in risks identified in the current year

Audit risks and areas of focus			
Risk / area of focus	Risk identified	Change from PY	Details
Misstatements due to fraud or error	Fraud risk	No change in risk or focus	As identified in ISA 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that would otherwise appear to be operating effectively.
Inappropriate capitalisation of revenue expenditure	Fraud risk	No change in risk or focus	Linking to our fraud risk identified above, we have determined that a way in which management could override controls is through the inappropriate capitalisation of revenue expenditure to understate revenue expenditure reported in the financial statements.
Inappropriate claims under the Local Government income compensation scheme	Fraud risk	New fraud risk	Linking to our fraud risk identified above, we have determined that a way in which management could override controls is through an claim through the Local Government Income compensation scheme in excess of the income lost by the Council
National Non-Domestic Rates (NNDR) Appeals Provision	Significant Risk	New significant risk	Statistics compiled by the Ministry for Housing, Communities and Local Government, reveal that councils are forecasting net additions to appeal provisions totalling £927m this financial year, and £1.2bn next year. The reason behind the forecast increase is that, due to the impact of Covid-19, businesses are likely to seek reductions based on a decrease in rental prices on which rateable values are based. In light of this we consider there to be a higher inherent risk of misstatement of the Council's NNDR appeals provision.
Accounting for Covid-19 related government grants	Significant risk	New significant risk	The Council has received a significant level of government funding in relation to Covid- 19. There is a need for the Council to ensure that it accounts for these grants appropriately, taking into account any associated restrictions and conditions.

Overview of our 2020/21 audit strategy

Risk / area of focus	Risk identified	Change from PY	Details
Pension Valuation and Disclosures	Inherent Risk	No change in risk or focus.	The Local Authority Accounting Code of Practice and IAS19 require the Authority to make extensive disclosures within its financial statements regarding the Local Government Pension Scheme (LGPS) in which it is an admitted body. The Authority's current pension fund deficit is a material and sensitive item and the Code requires that this liability be disclosed on the Authority's balance sheet. The information disclosed is based on the IAS 19 report issued to the Authority by the Actuary. Accounting for this scheme involves significant estimation and judgement and due to the nature, volume and size of the transactions we consider this to be a higher inherent risk.
Bad debt provision and recoverability of debtors	Inherent Risk	New inherent risk	As a result of the impact of Covid-19, there may be increased uncertainty around the recoverability of receivables. The provision for these bad debts is an estimate, and calculation requires management judgement. We would expect the Council to revisit their provision for bad debt calculation in light of Covid-19 and assess the appropriateness of this estimation technique.
Valuation of Land and Buildings	Inherent Risk	No change in risk or focus.	The fair value of Property, Plant and Equipment (PPE) represents a significant balance in the Council's accounts and is subject to valuation changes, impairment reviews and depreciation charges. Management is required to make material judgemental inputs and apply estimation techniques to calculate the year-end balances recorded in the balance sheet. As a result of our work last year we did not identify any material issues with the valuations. We are also not aware of any other trigger events that would give rise to a significant risk, and therefore this remains an inherent risk.
Group Accounting	Inherent Risk	No change in risk or focus	The Authority consolidates East Cambridgeshire Trading Company and East Cambs Street Scene into its group accounts. There is an inherent risk in ensuring that the group accounts reflect fairly the financial position and performance of each component. We identified the need for adjustments to be made to the prior year statements in respect of the consolidation and group accounts.
Collection Fund accounting	Inherent Risk	New inherent risk	During 2020-21, in response to the financial hardship faced by individuals and businesses, there may be lower levels of recovery of collection fund income. There are also specific sectors including retail, hospitality and leisure that have received additional business rates relief. There is therefore a risk of incorrect accounting based on the significant level of change in the year.

Overview of our 2020/21 audit strategy

Accounting estimates

In addition to the above risks and areas of focus, a revised auditing standard has been issued in respect of the audit of accounting estimates. The revised standard requires auditors to consider inherent risks associated with the production of accounting estimates. These could relate, for example, to the complexity of the method applied, subjectivity in the choice of data or assumptions or a high degree of estimation uncertainty. The changes to the standard may affect the nature and extent of information that we may request and will likely increase the level of audit work required. See page 18 for further details of the revised auditing standard.

Materiality

Planning materiality £0.790m

Performance materiality £0.593m

Audit differences £39k

We have set materiality at £0.790 million for the financial statements which represents 2% of the prior years gross revenue expenditure of the Council. Materiality for the group financial statements is £0.889 million. The use of 2% of gross revenue expenditure is in line with the prior year and is our maximum threshold for local authorities reflecting the higher profile of local government financial resilience and financial reporting.

We have set performance materiality at £0.593 million for the single entity financial statements and £0.666m for the group financial statements. This represents 75% of materiality reflecting the lower level of errors we detected in the 2019/20 financial statements. We determine component performance materiality as a percentage of Group performance materiality based on risk and relative size to the Group.

We will report all uncorrected misstatements relating to the group financial statements over £39,000. We will communicate other misstatements identified to the extent that they merit the attention of the Finance and Assets Committee

Audit scope

This Outline Audit Plan covers the work that we plan to perform to provide you with our audit opinion on the Council and Group financial statements for 2020/21. We are also required to report a commentary on your arrangements to secure value for money in your use of resources for the relevant period. We include further details on VFM in Section 03, highlighting the changes included in the NAO's Code of Audit Practice 2020.

We will also review and report to the NAO, to the extent and in the form required by them, on the Whole of Government Accounts submission. We intend to take a substantive audit approach. When planning the audit we take into account key inputs:

- Strategic, operational and financial risks relevant to the financial statements;
- Developments in financial reporting and auditing standards;
- The quality of systems and processes; Changes in the business and regulatory environment; and,
- Management's views on all of the above.

By considering these inputs, our audit is focused on the areas that matter and our feedback is more likely to be relevant to the Council. Taking the above into account, and as articulated in this Outline Audit Plan, our professional responsibilities require us to independently assess the risks associated with providing an audit opinion and undertake appropriate procedures in response. The fees we have included in Section 08 reflect the work we need to undertake to address the risks we have currently identified. We will continuously review and update as necessary our understanding of your risks and discuss with management and the Finance and Assets Committee any significant changes.

Overview of our 2021 audit strategy

Value for money conclusion

One of the main changes in the NAO's 2020 Code is in relation to the value for money conclusion. We include details in Section 03 but in summary:

- We are still required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources.
- Planning on VFM and the associated risk assessment is now focused on gathering sufficient evidence to enable us to document our evaluation of the Council's arrangements, to enable us to draft a commentary under three reporting criteria (see below). This includes identifying and reporting on any significant weaknesses in those arrangements and making appropriate recommendations.
- We will be required to provide a commentary on the Council's arrangements against three reporting criteria:
 - Financial sustainability How the Council plans and manages its resources to ensure it can continue to deliver its services;
 - Governance How the Council ensures that it makes informed decisions and properly manages its risks; and
 - Improving economy, efficiency and effectiveness How the Council uses information about its costs and performance to improve the way it manages and delivers its services.
- Within the audit opinion we will still only report by exception where we are not satisfied that the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources.
- The commentary on arrangements will be included in a new Auditor's Annual Report which we will be required to issue at a date to be determined by the NAO.

Timeline

At the time of drafting this Outline Audit Plan, MHCLG were consulting on changing the date for the Council to publish it's draft accounts to 1 August 2021. However, MHCLG has not yet outlined how that change impacts the target date for the Council to publish it's approved and audited accounts. In their response to the Redmond Review, MHCLG indicated that for 2020/21 that target date would be 30 September 2021. We have communicated with the Chief Finance Officers for all local authorities in the East of England to share our proposal to phase the delivery of the 2020/21 audits by the end of the year. In Section 07 we therefore include a provisional timeline for the audit of East Cambridgeshire.

We remain in discussion with PSAA about our proposed increase to the scale fee which we consider to be appropriate to deliver a Code compliant audit. We include in Section 08, our current view of the fees required to carry out the 2020/21 audit. We will update the Committee on any determinations by PSAA on fees.

Our response to significant risks

We have set out the significant risks (including fraud risks denoted by*) identified for the current year audit along with the rationale and expected audit approach. The risks identified below may change to reflect any significant findings or subsequent issues we identify during the audit.

Misstatements due to fraud or error *

What is the risk?

The financial statements as a whole are not free of material misstatements whether caused by fraud or error.

As identified in ISA (UK and Ireland) 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively.

We identify and respond to this fraud risk on every audit engagement.

What will we do?

- Inquire of management about risks of fraud and the controls put in place to address those risks.
- Understand the oversight given by those charged with governance of management's processes over fraud.
- ► Consider of the effectiveness of management's controls designed to address the risk of fraud.

Perform mandatory procedures regardless of specifically identified fraud risks, including:

- ► Testing the appropriateness of journal entries recorded in the general ledger and other adjustments made in the preparation of the financial statements
- Assessing accounting estimates for evidence of management bias, and
- Evaluating the business rationale for significant unusual transactions.

We will utilise our data analytics capabilities to assist with our work.

Having evaluated this risk we have considered whether we need to perform other audit procedures not referred to above. We concluded that only those procedures included under 'Inappropriate capitalisation of revenue expenditure' and 'inappropriate claim under the Local Government income compensation scheme' are required.

|å Audit risks

Our response to significant risks

Inappropriate capitalisation of revenue expenditure*

Financial statement impact

We have assessed that the risk of misreporting revenue outturn in the financial statements is most likely to be achieved through:

- ► Revenue expenditure being inappropriately recognised as capital expenditure at the point it is posted to the general ledger.
- ► Expenditure being inappropriately transferred by journal from revenue to capital codes on the general ledger at the end of the year.

If this were to happen it would have the impact of understating revenue expenditure and overstating PPE additions and/or Revenue Expenditure Financed as Capital Under Statute (REFCUS) in the financial statements.

What is the risk?

Under ISA 240 there is a presumed risk that revenue may be misstated due to improper revenue recognition. In the public sector, this requirement is modified by Practice Note 10 issued by the Financial Reporting Council, which states that auditors should also consider the risk that material misstatements may occur by the manipulation of expenditure recognition.

We have identified an opportunity and incentive to capitalise expenditure under the accounting framework, to remove it from the general fund. In arriving at this conclusion we have considered the continuing pressure on the revenue budget and the financial value of its annual capital programme which is many times out materiality level.

This could then result in funding of that expenditure, that should properly be defined as revenue, through inappropriate sources such as capital receipts, capital grants, or borrowing.

What will we do?

We will:

- ► Test PPE additions, and REFCUS if material, to ensure that the expenditure incurred and capitalised is clearly capital in nature or appropriate to be treated as REFCUS.
- ► Seek to identify and understand the basis for any significant journals transferring expenditure from revenue to capital codes on the general ledger at the end of the year.

We will utilise our data analytics capabilities to assist with our work, including journal entry testing. We will assess journal entries more generally for evidence of management bias and evaluate for business rationale.

|å Audit risks

Our response to significant risks

Inappropriate claim under the Local Government income compensation scheme *

Financial statement impact

We have assessed that the risk of misreporting revenue outturn in the financial statements could also be achieved through:

► A claim through the Local Government Income compensation scheme in excess of the income lost by the Council

If this were to happen it would have the impact of overstating revenue for the Council and understating any liabilities for repayment to Central Government

What is the risk?

In response to the Covid-19 pandemic, MHCLG introduced the local government income compensation scheme for lost sales, fees and charges as a result of COVID-19.

We have identified an opportunity and incentive to overstate claims through this grant, to increase income received against any ongoing losses. In arriving at this conclusion we have considered the continuing pressure on the revenue budget and the material nature of these claims.

This could then result in overstating income for funds inappropriately received, which may ultimately need to be repaid.

What will we do?

We will:

- ► Review a sample of claims made under the local government income compensation scheme for their overall accuracy and compliance with the requirements of the scheme
- ► Seek to understand the assurance MHCLG have over claims under the scheme. If no assurance, we will consider extending our own procedures.

Audit risks

Our response to significant risks

National Non-Domestic Rates (NNDR) **Appeals Provision**

Financial statement impact

The calculation of the NNDR Appeals Provision is estimate based. Given the impact of Covid-19 on businesses seeking reductions in rateable values, there is a risk of material misstatement of the appeals provision due to the nature of the provision and the uncertainty around the full impact of Covid-19.

What is the risk?

Statistics compiled by the Ministry for Housing, Communities and Local Government, reveal that councils are forecasting net additions to appeal provisions totalling £927m this financial year, and £1.2bn next year. The reason behind the forecast increase is that, due to the impact of Covid-19, businesses are likely to seek reductions based on a decrease in rental prices on which rateable values are based.

In light of this we consider there to be a significant risk of misstatement of the Council's NNDR appeals provision.

What will we do?

We will consider the Council's estimation of the NNDR appeals provision by performing the following:

- · Review the assumptions made by the Council's NNDR appeals provision specialist; and
- Assess the reasonableness of any local adjustments made by the Council on the NNDR appeals provision;

Our response to significant risks

Accounting for Covid-19 related grant funding

Financial statement impact

The Council has received a significant level of government funding in relation to Covid-19. Whilst there is no change in the CIPFA Code or accounting standard (IFRS 15) in respect of accounting for grant funding, the emergency nature of some of the grants received and in some cases the lack of clarity on any associated restrictions and conditions, means that the Council will need to apply a greater degree of assessment and judgement to determine the appropriate accounting treatment in the 2020/21 statements.

What is the risk?

In response to the Covid-19 pandemic, the Council have received significant levels of grant funding, both to support the Council and to pass on to local businesses. Each of these grants will have distinct restrictions and conditions that will impact the accounting treatment of these.

Given the volume of these grants, and the new conditions for the Council to understand the accounting impact of, there is a significant risk that these may be misclassified in the financial statements or inappropriately treated from an accounting perspective.

What will we do?

We will consider the Council's judgement on material grants received in relation to whether it is acting as:

- An Agent, where it has determined that it is acting as an intermediary; or
- A Principal, where the Council has determined that it is acting on its own behalf.

We will encourage the finance team to provide its assessment of grant accounting well before it prepares the statements so that we can provide an early view on its proposed accounting treatment.

Audit risks

Other areas of audit focus

We have identified other areas of the audit, that have not been classified as significant risks, but are still important when considering the risks of material misstatement to the financial statements and disclosures.

What is the area of focus?

Valuation of Land and Buildings

The fair value of Property, Plant and Equipment (PPE) represents a significant balance in the Authority's accounts and is subject to valuation changes, impairment reviews and depreciation charges.

Management is required to make material judgemental inputs and apply estimation techniques to calculate the year-end balances recorded in the balance sheet.

What will we do?

- Consider the work performed by the valuer, including the adequacy of the scope of the work performed, their professional capabilities and the results of their work;
- Sample test key asset information used by the valuer in performing their valuation (e.g. floor plans to support valuations based on price per square metre);
- Consider the annual cycle of valuations to ensure that assets have been valued within a 5 year rolling programme as required by the Code for PPE. We have also considered if there are any specific changes to assets that have occurred and that these have been communicated to the valuer;
- ► Review assets not subject to valuation in 2020/21 to confirm that the remaining asset base is not materially misstated;
- Consider changes to useful economic lives as a result of the most recent valuation;
 and
- ► Test accounting entries have been correctly processed in the financial statements.

Pension Liability Valuation & Pensions Assets

The Authority makes extensive disclosures within its financial statements regarding its membership of Pension Scheme administered by Cambridgeshire County Council. At 31 March 2020 the liability totalled £21.6 million.

The information disclosed is based on the IAS 19 report issued to the Authority by the actuary to the County Council.

Accounting for this scheme involves significant estimation and judgement and therefore management engages an actuary to undertake the calculations on their behalf.

We undertake procedures on the use of management experts and the assumptions underlying fair value estimates.

- ► Liaise with the auditors of Cambridgeshire Pension Fund, to obtain assurances over the information supplied to the actuary in relation to East Cambridgeshire District Council;
- Assess the work of the Pension Fund actuary (Hymans Robertson) including the assumptions they have used, by relying on the work of PWC Consulting Actuaries commissioned by the National Audit Office for all local government sector auditors, and by considering any relevant reviews by the EY actuarial team; and
- Review and test the accounting entries and disclosures made within the Authority's financial statements in relation to IAS19 considering fund assets and the Authority's liability.

Other areas of audit focus (continued)

Group Accounting

What is the risk/area of focus?

The Authority consolidates East Cambridgeshire Trading Company and East Cambs Street Scene into its group accounts. There is an inherent risk in ensuring that the group accounts reflect fairly the financial position and performance of each component. We identified the need for adjustments to be made to the prior year statements in respect of the consolidation and group accounts.

What will we do?

We will:

- Review the group assessment prepared by the Authority;
- Scope the audit requirements for each of the companies based on their significance to the group accounts. Liaising with the external auditors of each and potentially issuing group instructions that detail the required audit procedures they are to undertaken order to provide us with assurance for the opinion we will issue on the group accounts;
- Ensure the appropriate consolidation procedures and the Code of Practice are applied when preparing the group accounts.

Bad debt provision and recoverability of debtors

As a result of the impact of Covid-19, there may be increased uncertainty around the recoverability of receivables. This includes large value debtors with subsidiary companies and outstanding management fees in respect of the leisure centre. The provision for these bad debts is an estimate, and calculation requires management judgement. We would expect the Council to revisit their provision for bad debt calculation in light of Covid-19 and assess the appropriateness of this estimation technique. Given that there might be some subjectivity to the recoverability of debtors the Council will need to consider the level of any provision for bad debts. We have therefore raised as an inherent risk in our audit strategy.

In order to address this risk we will:

- ► Review the calculation of the bad debt provision for reasonableness and accuracy; and
- Consider the recoverability of debts in testing a sample of trade receivables.

Other areas of audit focus (continued)

What is the risk/area of focus?

Accounting for Collection Fund disclosures

During 2020-21, in response to the financial hardship faced by individuals and businesses, there may be lower levels of recovery of collection fund income.

There are also specific sectors including retail, hospitality and leisure that have received additional business rates relief for the financial year. There is therefore a risk of incorrect accounting based on the significant level of change in the year,

What will we do?

We will consider the Council's accounting for Collection Fund disclosures by performing the following:

- Performing an analytical review of collection fund income, building in any changes in relief as appropriate;
- Document our understanding of the process for the raising of specific additional reliefs
- Review the Collection Fund disclosures with respect to ongoing guidance in accounting requirements and for compliance with Code requirements

Going concern disclosure

There is a presumption that the Council will continue as a going concern for the foreseeable future. However, the Council is required to carry our a going concern assessment that is proportionate to the risks it faces. In light of the continued impact of Covid-19 on the Council's day to day finances, its annual budget, its cashflow and its medium term financial strategy, there is a need for the Council to ensure it's going concern assessment is thorough and appropriately comprehensive.

The Council is then required to ensure that its going concern disclosure within the statement of accounts adequately reflects its going concern assessment and in particular highlights any uncertainties it has identified.

In addition, the auditing standard in relation to going concern (ISA570) has been revised with effect for the 2020/21 accounts audit.

We will meet the requirements of the revised auditing standard on going concern (ISA 570) and consider the adequacy of the Council's going concern assessment and its disclosure in the accounts by:

- Challenging management's identification of events or conditions impacting going concern.
- Testing management's resulting assessment of going concern by evaluating supporting evidence (including consideration of the risk of management bias).
- Reviewing the Council's cashflow forecast covering the foreseeable future, to ensure that it has sufficient liquidity to continue to operate as a going concern.
- Undertaking a 'stand back' review to consider all of the evidence obtained, whether corroborative or contradictory, when we draw our conclusions on going concern.
- Challenging the disclosure made in the accounts in respect of going concern and any material uncertainties.

Other areas of audit focus (Continued)

What is the risk/area of focus?

Auditing accounting estimates

ISA 540 (Revised) - Auditing Accounting Estimates and Related Disclosures applies to audits of all accounting estimates in financial statements for periods beginning on or after December 15, 2019.

This revised ISA responds to changes in financial reporting standards and a more complex business environment which together have increased the importance of accounting estimates to the users of financial statements and introduced new challenges for preparers and auditors.

The revised ISA requires auditors to consider inherent risks associated with the production of accounting estimates. These could relate, for example, to the complexity of the method applied, subjectivity in the choice of data or assumptions or a high degree of estimation uncertainty. As part of this, auditors consider risk on a spectrum (from low to high inherent risk) rather than a simplified classification of whether there is a significant risk or not. At the same time, we expect the number of significant risks we report in respect of accounting estimates to increase as a result of the revised guidance in this area.

The changes to the standard may affect the nature and extent of information that we may request and will likely increase the level of audit work required, particularly in cases where an accounting estimate and related disclosures are higher on the spectrum of inherent risk. For example:

- We may place more emphasis on obtaining an understanding of the nature and extent of your estimation processes and key aspects of related policies and procedures. We will need to review whether controls over these processes have been adequately designed and implemented in a greater number of cases.
- We may provide increased challenge of aspects of how you derive your accounting estimates. For example, as well as undertaking procedures to
 determine whether there is evidence which supports the judgments made by management, we may also consider whether there is evidence which
 could contradicts them.
- We may make more focussed requests for evidence or carry out more targeted procedures relating to components of accounting estimates. This might include the methods or models used, assumptions and data chosen or how disclosures (for instance on the level of uncertainty in an estimate) have been made, depending on our assessment of where the inherent risk lies.
- You may wish to consider retaining experts to assist with related work. You may also consider documenting key judgements and decisions in anticipation of auditor requests, to facilitate more efficient and effective discussions with the audit team.
- We may ask for new or changed management representations compared to prior years.

Value for money

The Council's responsibilities for value for money

The Council is required to maintain an effective system of internal control that supports the achievement of its policies, aims and objectives while safeguarding and securing value for money from the public funds and other resources at its disposal.

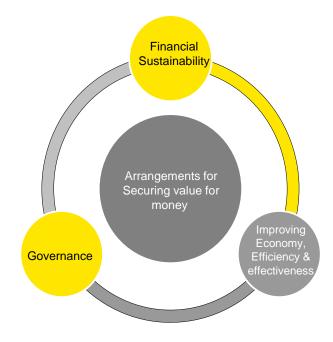

As part of the material published with its financial statements, the Council is required to bring together commentary on its governance framework and how this has operated during the period in a governance statement. In preparing its governance statement, the Council tailor's the content to reflect its own individual circumstances, consistent with the requirements of the relevant accounting and reporting framework and having regard to any guidance issued in support of that framework. This includes a requirement to provide commentary on its arrangements for securing value for money from their use of resources.

Auditor responsibilities under the new Code

Under the 2020 Code we are still required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources. However, there is no longer overall evaluation criterion which we need to conclude on. Instead the 2020 Code requires the auditor to design their work to provide them with sufficient assurance to enable them to report to the Council a commentary against specified reporting criteria (see below) on the arrangements the Council has in place to secure value for money through economic, efficient and effective use of its resources for the relevant period.

The specified reporting criteria are:

- Financial sustainability
 How the Council plans and manages its resources to ensure it can continue to deliver its services;
- Governance
 How the Council ensures that it makes informed decisions and properly manages its risks; and
- Improving economy, efficiency and effectiveness: How the Council uses information about its costs and performance to improve the way it manages and delivers its services.

Value for money

Planning and identifying VFM risks

The NAO's guidance notes require us to carry out a risk assessment which gathers sufficient evidence to enable us to document our evaluation of the Council's arrangements, in order to enable us to draft a commentary under the three reporting criteria. This includes identifying and reporting on any significant weaknesses in those arrangements and making appropriate recommendations. This is a change to 2015 Code guidance notes where the NAO required auditors as part of planning, to consider the risk of reaching an incorrect conclusion in relation to the overall criterion.

In considering the Council's arrangements, we are required to consider:

- The Council's governance statement
- Evidence that the Council's arrangements were in place during the reporting period;
- Evidence obtained from our work on the accounts;
- The work of inspectorates (such as OfSTED) and other bodies and
- Any other evidence source that we regard as necessary to facilitate the performance of our statutory duties.

We then consider whether there is evidence to suggest that there are significant weaknesses in arrangements. The NAO's guidance is clear that the assessment of what constitutes a significant weakness and the amount of additional audit work required to adequately respond to the risk of a significant weakness in arrangements is a matter of professional judgement. However, the NAO states that a weakness may be said to be significant if it:

- Exposes or could reasonably be expected to expose the Council to significant financial loss or risk;
- Leads to or could reasonably be expected to lead to significant impact on the quality or effectiveness of service or on the Council's reputation;
- Leads to or could reasonably be expected to lead to unlawful actions; or
- Identifies a failure to take action to address a previously identified significant weakness, such as failure to implement or achieve planned progress on action/improvement plans.

We should also be informed by a consideration of:

- The magnitude of the issue in relation to the size of the Council;
- Financial consequences in comparison to, for example, levels of income or expenditure, levels of reserves, or impact on budgets or cashflow forecasts;
- The impact of the weakness on the Council's reported performance;
- Whether the issue has been identified by the Council's own internal arrangements and what corrective action has been taken or planned;
- Whether any legal judgements have been made including judicial review;
- Whether there has been any intervention by a regulator or Secretary of State;
- Whether the weakness could be considered significant when assessed against the nature, visibility or sensitivity of the issue;
- The impact on delivery of services to local taxpayers; and
- The length of time the Council has had to respond to the issue.

Value for money

Responding to identified risks

Where our planning work has identified a risk of significant weakness, the NAO's guidance requires us to consider what additional evidence is needed to determine whether there is a significant weakness in arrangements and undertake additional procedures as necessary, including where appropriate, challenge of management's assumptions. We are required to report our planned procedures to the audit committee.

Reporting on VFM

In addition to the commentary on arrangements, where we are not satisfied that the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources the 2020 Code has the same requirement as the 2015 Code in that we should refer to this by exception in the audit report on the financial statements.

However, a new requirement under the 2020 Code is for us to include the commentary on arrangements in a new Auditor's Annual Report. The 2020 Code states that the commentary should be clear, readily understandable and highlight any issues we wish to draw to the Council's attention or the wider public. This should include details of any recommendations arising from the audit and follow-up of recommendations issued previously, along with our view as to whether they have been implemented satisfactorily.

Status of our 2020/21 VFM planning

We have yet to commence our detailed VFM planning. However, one area of focus will be on the arrangements that the Council has in place in relation to financial sustainability in light of the impact of Covid-19 on the Council's finances. This includes arrangement with key business partners including subsidiary companies (in particular East Cambs Trading Company Ltd) and the Leisure Centre operator. We have not at the time of our issuing of the audit plan identified any significant risks in respect of Value for Money.

We will update the next Committee meeting on the outcome of our VFM planning and our planned response to any identified risks of significant weaknesses in arrangements.

₽ Audit materiality

Materiality

Materiality

For planning purposes, planning materiality for 2020/21 has been set at £0.790 million for the Council's financial statements. This represents 2% of the Council's prior year gross revenue expenditure (GRE) on provision of services, It will be reassessed throughout the audit process. We consider that gross expenditure on the provision of services is the area of biggest interest to the users of the Council's accounts.

We request that the Finance and Assets Committee confirm its understanding of, and agreement to, these materiality and reporting levels.

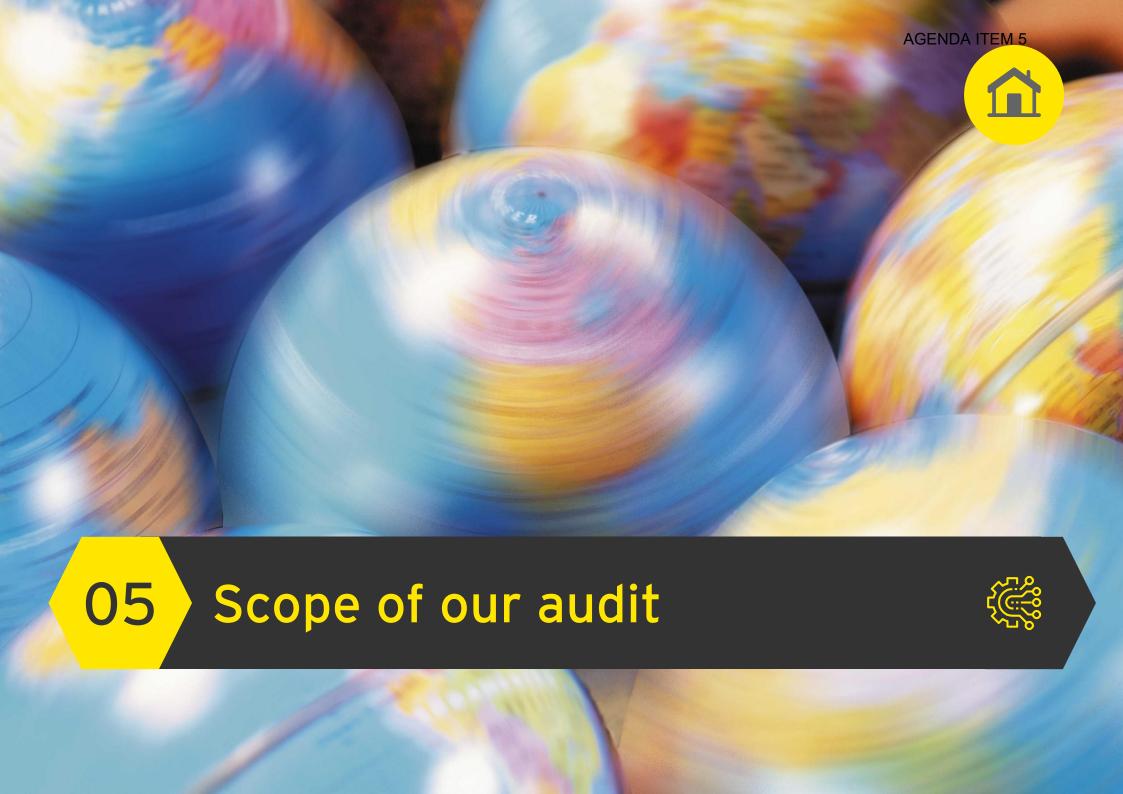

Key definitions

Planning materiality - the amount over which we anticipate misstatements would influence the economic decisions of a user of the financial statements.

Performance materiality - the amount we use to determine the extent of our audit procedures. We have set performance materiality at £0.593 million for the financial statements which represents 75% of planning materiality. This reflects the relatively lower level of error detected in our 2019/20 financial statements audit.

Audit difference threshold – we propose that misstatements identified below this threshold of £39,000 are deemed clearly trivial. The same threshold for misstatements is used for component reporting. We will report to you all uncorrected misstatements over this amount relating to the comprehensive income and expenditure statement, balance sheet and collection fund that have an effect on income or that relate to other comprehensive income.

Other uncorrected misstatements, such as reclassifications and misstatements in the cashflow statement and movement in reserves statement or disclosures, and corrected misstatements will be communicated to the extent that they merit the attention of the Finance and Assets Committee, or are important from a qualitative perspective.

Objective and scope of our audit

Under the Code of Audit Practice our principal objectives are to review and report on the Council's financial statements and, by exception, where we are not satisfied that the Council had established arrangements for securing economy, efficiency and effectiveness in its use of resources to the extent required by the relevant legislation and the requirements of the Code.

We issue an audit report that covers:

1. Financial statement audit

Our objective is to form an opinion on the financial statements under International Standards on Auditing (UK). We also perform other procedures as required by auditing, ethical and independence standards, the Code and other regulations. We outline below the procedures we will undertake during the course of our audit.

Procedures required by standards

- · Addressing the risk of fraud and error;
- Significant disclosures included in the financial statements;
- Entity-wide controls;
- Reading other information contained in the financial statements and reporting whether it is inconsistent with our understanding and the financial statements; and
- · Auditor independence.

Procedures required by the Code

Reviewing, and reporting on as appropriate, other information published with the financial statements, including the Annual Governance Statement; and Reviewing and reporting on the Whole of Government Accounts return, in line with the instructions issued by the NAO.

2. Arrangements for securing economy, efficiency and effectiveness (value for money)

As outlined in Section 03, we are required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources and report a commentary on those arrangements.

Audit Process overview

Our audit involves:

- ▶ Identifying and understanding the key processes and internal controls; and
- Substantive tests of detail of transactions and amounts.

For 2020/21 we plan to follow a substantive approach to the audit as we have concluded this is the most efficient way to obtain the level of audit assurance required to conclude that the financial statements are not materially misstated.

Analytics

We will use our analytics tools to enable us to capture whole populations of your financial data, in particular journal entries. These tools:

- ▶ Help identify specific exceptions and anomalies which can then be subject to more traditional substantive audit tests; and
- Give greater likelihood of identifying errors than random sampling techniques.

We will report the findings from our process and analytics work, including any significant weaknesses or inefficiencies identified and recommendations for improvement, to management and the Audit Committee.

Internal audit

We will review internal audit plans and the results of their work. We will reflect on these when designing our overall audit approach and when developing our detailed testing strategy. We may also reflect relevant findings from their work in our reporting, where it raises issues that could have a material impact on the financial statements.

Group scoping

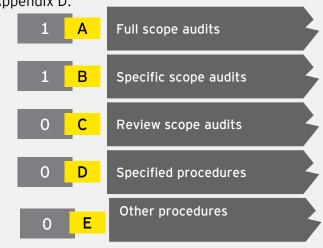

For 2020/21 the Council has determined that it should consolidate East Cambs Trading Company and East Cambs Street Scene to prepare group accounts. Our audit strategy for performing an audit of an entity components is risk based. We identify components as:

- 1. **Significant components:** A component is significant when it is likely to include risks of material misstatement of the group financial statements, either because of its relative financial size to the group (quantitative criteria), or because of its specific nature or circumstances (qualitative criteria). We generally assign significant components a full or specific scope given their importance to the financial statements.
- 2. **Not significant components:** The number of additional components and extent of procedures performed depended primarily on: evidence from significant components, the effectiveness of group wide controls and the results of analytical procedures.

For all other components we perform other procedures to confirm that there is no risk of material misstatement within those locations. These procedures are detailed below.

Scoping by Entity

Our preliminary audit scopes by number of locations we have adopted are set out below. We provide scope details for the component within Appendix D.

Scope definitions

Full scope: where a full audit is performed to the materiality levels assigned by the Group audit team for purposes of the consolidated audit.

Specific scope: where the audit is limited to specific accounts or disclosures identified by the Group audit team based on the size and/or risk profile of those accounts.

Review scope: where procedures primarily consist of analytical procedures and inquiries of management. On-site or desk top reviews may be performed, according to our assessment of risk and the availability of information centrally.

Specified Procedures: where the component team performs procedures specified by the Group audit team in order to respond to a risk identified.

Other procedures: Where we do not consider it material to the Group financial statements in terms of size relative to the Group and risk, we perform other procedures to confirm that there is no risk of material misstatement within those locations.

Audit team

Audit team

Audit team structure: Suresh Patel Associate Partner Working together with the Council Jacob McHugh We are working together with officers to Audit Manager identify continuing improvements in communication and processes for the 2020/21 audit. Rosanna Driver We will continue to keep our audit approach under review to streamline it where possible. PwC (consulting EY Real actuary) and EY Estates (EYRE) Actuaries

Use of specialists

When auditing key judgements, we are often required to use the input and advice provided by specialists who have qualifications and expertise not possessed by the core audit team. The areas where specialists are expected to provide input for the current year audit are:

Area	Specialists
Pensions disclosure	EY Actuaries Hymans Robertson- Actuary to Cambridgeshire Pension Fund
Property, plant and equipment	Wilks Head & Eve are engaged by the Council for valuation of its PPE. EY Real Estates
NDR Appeals Provision	Wilks Head & Eve are engaged by the Council for support in the calculation of the NDR Appeals Provision.

In accordance with Auditing Standards, we will evaluate each specialist's professional competence and objectivity, considering their qualifications, experience and available resources, together with the independence of the individuals performing the work.

We also consider the work performed by the specialist in light of our knowledge of the Council's business and processes and our assessment of audit risk in the particular area. For example, we would typically perform the following procedures:

- Analyse source data and make inquiries as to the procedures used by the specialist to establish whether the source data is relevant and reliable;
- Assess the reasonableness of the assumptions and methods used;
- Consider the appropriateness of the timing of when the specialist carried out the work; and
- Assess whether the substance of the specialist's findings are properly reflected in the financial statements.

Indicative Audit timeline

Indicative timetable of communication and planned deliverables

Indicative timeline

Below is an indicative timetable showing the key stages of the audit and the planned deliverables we have agreed to provide to you through the audit cycle in 2020/21. Please note that we will communicate any changes to this plan to officers and members as soon as we can. From time to time matters may arise that require immediate communication with the Finance and Assets Committee and we will discuss them with the Committee Chair as appropriate. We will also provide updates on corporate governance and regulatory matters as necessary.

Audit phase	Timetable	Finance and Assets Committee Meeting timetable	Deliverables
Initial Planning:	March 2021	Finance and Assets Committee	Outline audit plan
Risk assessment and setting of scopes and walkthrough of key systems and processes		Meeting	
Completion of initial planning	March		
Interim audit testing and completion of walkthroughs	April

Year end audit	October		Annual Auditor's Report including commentary on VFM
Audit Completion procedures			
	November	Audit Committee	Annual Auditor's Report including commentary on VFM

Introduction

The FRC Ethical Standard and ISA (UK) 260 "Communication of audit matters with those charged with governance", requires us to communicate with you on a timely basis on all significant facts and matters that bear upon our integrity, objectivity and independence. The Ethical Standard, as revised in December 2019, requires that we communicate formally both at the planning stage and at the conclusion of the audit, as well as during the course of the audit if appropriate. The aim of these communications is to ensure full and fair disclosure by us to those charged with your governance on matters in which you have an interest.

Required communications

Planning stage

- The principal threats, if any, to objectivity and independence identified by Ernst & Young (EY) including consideration of all relationships between you, your affiliates and directors and us;
- The safeguards adopted and the reasons why they are considered to be effective, including any Engagement Quality review;
- The overall assessment of threats and safeguards;
- Information about the general policies and process within EY to maintain objectivity and independence.

Final stage

- ▶ In order for you to assess the integrity, objectivity and independence of the firm and each covered person, we are required to provide a written disclosure of relationships (including the provision of non-audit services) that may bear on our integrity, objectivity and independence. This is required to have regard to relationships with the entity, its directors and senior management, its affiliates, and its connected parties and the threats to integrity or objectivity, including those that could compromise independence that these create. We are also required to disclose any safeguards that we have put in place and why they address such threats, together with any other information necessary to enable our objectivity and independence to be assessed;
- ▶ Details of non-audit/additional services provided and the fees charged in relation thereto;
- Written confirmation that the firm and each covered person is independent and, if applicable, that any non-EY firms used in the group audit or external experts used have confirmed their independence to us;
- ► Details of any non-audit/additional services to a UK PIE audit client where there are differences of professional opinion concerning the engagement between the Ethics Partner and Engagement Partner and where the final conclusion differs from the professional opinion of the Ethics Partner
- ▶ Details of any inconsistencies between FRC Ethical Standard and your policy for the supply of non-audit services by EY and any apparent breach of that policy;
- ▶ Details of all breaches of the IESBA Code of Ethics, the FRC Ethical Standard and professional standards, and of any safeguards applied and actions taken by EY to address any threats to independence; and
- ▶ An opportunity to discuss auditor independence issues.

In addition, during the course of the audit, we are required to communicate with you whenever any significant judgements are made about threats to objectivity and independence and the appropriateness of safeguards put in place, for example, when accepting an engagement to provide non-audit services.

We ensure that the total amount of fees that EY and our network firms have charged to you and your affiliates for the provision of services during the reporting period, analysed in appropriate categories, are disclosed.

Relationships, services and related threats and safeguards

We highlight the following significant facts and matters that may be reasonably considered to bear upon our objectivity and independence, including the principal threats, if any. We have adopted the safeguards noted below to mitigate these threats along with the reasons why they are considered to be effective. However we will only perform non -audit services if the service has been pre-approved in accordance with your policy.

Overall Assessment

Overall, we consider that the safeguards that have been adopted appropriately mitigate the principal threats identified and we therefore confirm that EY is independent and the objectivity and independence of Suresh Patel, your audit engagement partner, and the audit engagement team have not been compromised.

Self interest threats

A self interest threat arises when EY has financial or other interests in the Council. Examples include where we receive significant fees in respect of non-audit services; where we need to recover long outstanding fees; or where we enter into a business relationship with you. At the time of writing, there are no long outstanding fees.

We believe that it is appropriate for us to undertake those permitted non-audit/additional services set out in Section 5.40 of the FRC Ethical Standard 2019 (FRC ES), and we will comply with the policies that you have approved

When the ratio of non-audit fees to audit fees exceeds 1:1, we are required to discuss this with our Ethics Partner, as set out by the FRC ES, and if necessary agree additional safeguards or not accept the non-audit engagement. We will also discuss this with you.

A self interest threat may also arise if members of our audit engagement team have objectives or are rewarded in relation to sales of non-audit services to you. We confirm that no member of our audit engagement team, including those from other service lines, has objectives or is rewarded in relation to sales to you, in compliance with Ethical Standard part 4.

There are no other self interest threats at the date of this report

Self review threats

Self review threats arise when the results of a non-audit service performed by EY or others within the EY network are reflected in the amounts included or disclosed in the financial statements.

There are no self review threats at the date of this report.

Management threats

Partners and employees of EY are prohibited from taking decisions on behalf of management of the Council. Management threats may also arise during the provision of a non-audit service in relation to which management is required to make judgements or decision based on that work.

There are no management threats at the date of this report.

Relationships, services and related threats and safeguards

Other threats

Other threats, such as advocacy, familiarity or intimidation, may arise.

There are no other threats at the date of this report.

Other communications

EY Transparency Report 2020

Ernst & Young (EY) has policies and procedures that instil professional values as part of firm culture and ensure that the highest standards of objectivity, independence and integrity are maintained.

Details of the key policies and processes in place within EY for maintaining objectivity and independence can be found in our annual Transparency Report which the firm is required to publish by law. The most recent version of this Report is for the year ended 1 July 2020 and can be found here:

https://www.ey.com/uk/en/about-us/ey-uk-transparency-report-2020

Appendix A

Fees

The duty to prescribe fees is a statutory function delegated to Public Sector Audit Appointments Ltd (PSAA) by the Secretary of State for Communities and Local Government. PSAA has published a scale fee for all relevant bodies. This is defined as the fee required by auditors to meet statutory responsibilities under the Local Audit and Accountability Act 2014 in accordance with the requirements of the Code of Audit Practice and supporting guidance published by the National Audit Office, the financial reporting requirements set out in the Code of Practice on Local Authority Accounting published by CIPFA/LASAAC, and the professional standards applicable to auditors' work.

published by CIPFA/LASAAC, and the professional standards applicable to auditors' v				
	Planned fee 2020/21 (£)	Final fee 2019/20 (£)		
Scale Fee - Code work [note 1]	31,955	31,955		
Additional fees: [note 2]				
- Group consolidation	5,000-6,000	5,900		
- 50% Performance Materiality	-	6,253		
- Value for money risks	TBC	834		
- Property, Plant and Equipment Considerations	TBC	2,750		
- Going Concern	1,500-2,500	2,370		
- Internal consultations due to additional disclosure requirements	TBC	2,603		
- Pensions	TBC	1,126		
- Reassessment of materiality	-	372		
- Inefficiency of remote working due to Covid-19	TBC	2,394		
Additional work to address new inherent & significant risks	TBC	-		
Revised estimates auditing standard	TBC	-		
Total audit	TBC	56,909		
Non - audit services (Housing Benefits)	-	TBC		
Total fees	-	TBC		

The agreed fee presented is based on the following assumptions:

- · Officers meeting the agreed timetable of deliverables;
- Our accounts opinion being unqualified;
- Appropriate quality of documentation is provided by the Council;
- The Council has an effective control environment;
- EY internal consultation on the audit report in line with 2019/20.

If any of the above assumptions prove to be unfounded, we will seek a variation to the agreed fee. This will be discussed in advance.

Fees for the auditor's consideration of correspondence from the public and formal objections will be charged in addition to the scale fee.

Notes:

- 1. We are currently in discussion with PSAA nationally about an increase to the scale fee. For Merton we proposed an increase of £18,209. This is yet to be determined by PSAA.
- 2019/20 additional fees agreed with management. This remains subject to approval by PSAA. Ranges for 2020/21 additional fees based on prior year experience where appropriate.

Required communications with the Finance and Assets Committee

We have detailed the communications that we must provide to the Finance and Assets Committee.

		Our Reporting to you
Required communications	What is reported?	When and where
Terms of engagement	Confirmation by the Finance and Assets Committee of acceptance of terms of engagement as written in the engagement letter signed by both parties.	The statement of responsibilities serves as the formal terms of engagement between the PSAA's appointed auditors and audited bodies.
Our responsibilities	Reminder of our responsibilities as set out in the engagement letter	The statement of responsibilities serves as the formal terms of engagement between the PSAA's appointed auditors and audited bodies.
Planning and audit approach	Communication of the planned scope and timing of the audit, any limitations and the significant risks identified. When communicating key audit matters this includes the most significant risks of material misstatement (whether or not due to fraud) including those that have the greatest effect on the overall audit strategy, the allocation of resources in the audit and directing the efforts of the engagement team	Outline Audit Plan, March 2021 meeting of the Finance and Assets Committee.
Significant findings from the audit	 Our view about the significant qualitative aspects of accounting practices including accounting policies, accounting estimates and financial statement disclosures Significant difficulties, if any, encountered during the audit Significant matters, if any, arising from the audit that were discussed with management Written representations that we are seeking Expected modifications to the audit report Other matters if any, significant to the oversight of the financial reporting process 	Audit Results Report, November 2021 meeting of the Audit Committee.

Our Penarting to you

Appendix B

Required communications with the Finance and Assets Committee (continued)

		Our Reporting to you
Required communications	What is reported?	When and where
Public Interest Entities	For the audits of financial statements of public interest entities our written communications to the Audit Committee include: A declaration of independence The identity of each key audit partner The use of non-member firms or external specialists and confirmation of their independence The nature and frequency of communications A description of the scope and timing of the audit Which categories of the balance sheet have been tested substantively or controls based and explanations for significant changes to the prior year, including first year audits Materiality Any going concern issues identified Any significant deficiencies in internal control identified and whether they have been resolved by management Actual or suspected non-compliance with laws and regulations identified relevant to the Audit Committee The valuation methods used and any changes to these including first year audits The scope of consolidation and exclusion criteria if any and whether in accordance with the reporting framework The identification of any non-EY component teams used in the group audit The completeness of documentation and explanations received Any significant difficulties encountered in the course of the audit Any significant matters discussed with management Any other matters considered significant	Outline Audit Plan, March 2021 meeting of the Finance and Assets Committee. and Audit Results Report, November 2021 meeting of the Audit Committee.

Required communications with the Finance and Assets Committee (continued)

		Our Reporting to you
Required communications	What is reported?	When and where
Going concern	 Events or conditions identified that may cast significant doubt on the entity's ability to continue as a going concern, including: Whether the events or conditions constitute a material uncertainty Whether the use of the going concern assumption is appropriate in the preparation and presentation of the financial statements The adequacy of related disclosures in the financial statements 	Audit Results Report, November 2021 meeting of the Audit Committee.
Misstatements	 Uncorrected misstatements and their effect on our audit opinion, unless prohibited by law or regulation The effect of uncorrected misstatements related to prior periods A request that any uncorrected misstatement be corrected Corrected misstatements that are significant Material misstatements corrected by management 	Audit Results Report, November 2021 meeting of the Audit Committee.
Fraud	 Enquiries of the Audit Committee to determine whether they have knowledge of any actual, suspected or alleged fraud affecting the entity Any fraud that we have identified or information we have obtained that indicates that a fraud may exist A discussion of any other matters related to fraud 	Audit Results Report, November 2021 meeting of the Audit Committee.
Related parties	Significant matters arising during the audit in connection with the entity's related parties including, when applicable: Non-disclosure by management Inappropriate authorisation and approval of transactions Disagreement over disclosures Non-compliance with laws and regulations Difficulty in identifying the party that ultimately controls the entity	Audit Results Report, November 2021 meeting of the Audit Committee.

Required communications with the General Purposes and Standards Committee (continued)

		E Our Reporting to you
Required communications	What is reported?	When and where
Independence	Communication of all significant facts and matters that bear on EY's, and all individuals involved in the audit, objectivity and independence Communication of key elements of the audit engagement partner's consideration of independence and objectivity such as: The principal threats Safeguards adopted and their effectiveness An overall assessment of threats and safeguards Information about the general policies and process within the firm to maintain objectivity and independence For public interest entities and listed companies, communication of minimum requirements as detailed in the FRC Revised Ethical Standard 2016: Relationships between EY, the Council and senior management, its affiliates and its connected parties Services provided by EY that may reasonably bear on the auditors' objectivity and independence and related safeguards Fees charged by EY analysed into appropriate categories such as statutory audit fees, tax advisory fees, other non-audit service fees A statement of compliance with the Ethical Standard, including any non-EY firms or external experts used in the audit Details of any inconsistencies between the Ethical Standard and Group's policy for the provision of non-audit services, and any apparent breach of that policy Details of any contingent fee arrangements for non-audit services Where EY has determined it is appropriate to apply more restrictive rules than permitted under the Ethical Standard The Audit Committee should also be provided an opportunity to discuss matters affecting auditor independence	Outline Audit Plan, March 2021 Audit results report, November 2021

Required communications with the Finance and Assets Committee (continued)

		e Our Reporting to you
Required communications	What is reported?	When and where
External confirmations	 Management's refusal for us to request confirmations Inability to obtain relevant and reliable audit evidence from other procedures 	Audit Results Report, November 2021 meeting of the Audit Committee.
Consideration of laws and regulations	 Audit findings regarding non-compliance where the non-compliance is material and believed to be intentional. This communication is subject to compliance with legislation on tipping off Enquiry of the Audit Committee into possible instances of non-compliance with laws and regulations that may have a material effect on the financial statements and that the Committee may be aware of 	Audit Results Report, November 2021 meeting of the Audit Committee.
Internal controls	► Significant deficiencies in internal controls identified during the audit	Audit Results Report, November 2021 meeting of the Audit Committee.
Representations	 Written representations we are requesting from management and/or those charged with governance 	Assurance Letter to be received shortly after year-end.
Material inconsistencies and misstatements	► Material inconsistencies or misstatements of fact identified in other information which management has refused to revise	Audit Results Report, November 2021 meeting of the Audit Committee.
Auditors report	 Key audit matters that we will include in our auditor's report Any circumstances identified that affect the form and content of our auditor's report 	Audit Results Report, November 2021 meeting of the Audit Committee.

Appendix C

Additional audit information

Other required procedures during the course of the audit

In addition to the key areas of audit focus outlined in section 2, we have to perform other procedures as required by auditing, ethical and independence standards and other regulations. We outline the procedures below that we will undertake during the course of our audit.

Our responsibilities required by auditing standards

- ▶ Identifying and assessing the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control.
- Evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Concluding on the appropriateness of management's use of the going concern basis of accounting.
- Evaluating the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtaining sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Council to express an opinion on the consolidated financial statements. Reading other information contained in the financial statements, including the board's statement that the annual report is fair, balanced and understandable, the Audit Committee reporting appropriately addresses matters communicated by us to the Committee and reporting whether it is materially inconsistent with our understanding and the financial statements; and Maintaining auditor independence.

Purpose and evaluation of materiality

For the purposes of determining whether the accounts are free from material error, we define materiality as the magnitude of an omission or misstatement that, individually or in the aggregate, in light of the surrounding circumstances, could reasonably be expected to influence the economic decisions of the users of the financial statements. Our evaluation of it requires professional judgement and necessarily takes into account qualitative as well as quantitative considerations implicit in the definition. We would be happy to discuss with you your expectations regarding our detection of misstatements in the financial statements.

Materiality determines the locations at which we conduct audit procedures to support the opinion given on the financial statements; and the level of work performed on individual account balances and financial statement disclosures.

The amount we consider material at the end of the audit may differ from our initial determination. At this stage, however, it is not feasible to anticipate all of the circumstances that may ultimately influence our judgement about materiality. At the end of the audit we will form our final opinion by reference to all matters that could be significant to users of the accounts, including the total effect of the audit misstatements we identify, and our evaluation of materiality at that date.
