Please explain any impact identified: i.e. What do you already know about equality impact or

need? Is there any evidence that there is a higher or lower take-up by particular groups? Have there been any demographic changes or trends locally? Are there any barriers to accessing the policy or service?

(g) Does it have the potential to disadvantage or discriminate unfairly against any of the groups in a way that is unlawful?	NO

(h) How have you engaged stakeholders in gathering evidence or testing the policy proposals? Who was involved, how and when where they engaged? Does the evidence show potential for differential impact? How will you mitigate any negative impacts? Where there is the potential for an adverse impact that cannot be addressed immediately, these should be highlighted in your recommendations and objectives at the end of the EIA.

Via the required consultation, and discussions with the open spaces team

(i) Summarise the findings of your research and/or consultation (please use a separate sheet if necessary).

The current designations are no longer fit for purpose, and go against the Council's open for business statements. The proposed resolution will align the street trading rules with the aims of the Council.

(j) What are the risks associated with the policy in relation to differential impact and unmet needs/requirements? i.e. reputation, financial, breach of legislation, service exclusion, lack of resources, lack of cooperation, insufficient budget etc.

None

(k) Use the information gathered in the earlier stages of your EIA to make a judgement on whether there is the potential for the policy to result in unlawful discrimination or a less favourable impact on any group in the community, and what changes (if any) need to be made to the policy.

Option 1:	No major change - the evidence shows that the policy is robust and no	Χ
	potential for discrimination.	
Option 2:	Adjust the policy - to remove barriers or to better promote equality.	
Option 3:	Continue the policy - despite potential for adverse impact or missed opportunity to promote equality, provided you have satisfied yourself that it does not unlawfully discriminate.	
Option 4:	Stop and remove the policy – if the policy shows adverse effects that cannot be justified.	

(I) Where you have identified the potential for adverse impact, what action can be taken to remove or mitigate against the potential for the policy to unlawfully discriminate or impact less favourably on one or more communities in a way that cannot be justified? Include key activities that are likely to have the greatest impact (max. 6). Identified actions should be specified in detail for the first year but there may be further longer term actions which need to be considered. To ensure that your actions are more than just a list of good intentions, include for each: the person responsible for its completion, a timescale for completion, any cost implications and how these will be addressed. It is essential that you incorporate these actions into your service plans.

^{*} The Consultation Register is available to assist staff in consulting with the Council's stakeholders.
