

The applicant Mr Chris Attle will arrange for the blades of the Northern wind turbine ( No 1) to be stopped subject to these conditions.

- 1 When the wind is stronger than 10 mph as noted by an anemometer sited on the top of the Northern wind turbine ( No 1)
- 2 When the wind comes from the direction is from 30 degrees to 150 degrees
- 3 On one of the 26 days a year which the applicant has received 28 days prior notice from Mr Furness of when flying might take place
- 4 During daylight hours only
- 5 Should Mr Attle be asked to stop the blades on one of these 26 days and then flying is cancelled, Mr Attle will be advised immediately by Mr Furness that this decision is taken and the blades will no longer be stopped that day or days
- 6 Should flying operations cease for more than three months all these conditions will cease to apply
