

APPENDIX 1 - CONDITIONS

REF: 18/01053/OUM - LAND REAR OF GARDEN CLOSE, SUTTON

1. Development shall be carried out in accordance with the drawings and documents listed below:

Plan type	Rev	Received
36783_5501_SK02	B	27.07.2018
CSA/3881/100	C	27.07.2018

Planning Statement		27.07.2018
Topographical Survey		27.07.2018
Transport Assessment		27.07.2018
Utilities Statement		27.07.2018

1. Reason: To define the scope and extent of this permission.
2. Approval of the details of the appearance, landscaping, scale and layout (hereinafter called "the reserved matters") shall be obtained from the Local Planning Authority in writing before any development is commenced, and shall be carried out as approved. Application for approval of the reserved matters shall be made within 3 years of the date of this permission.
2. Reason; The application is for outline permission only and gives insufficient details of the proposed development, and to comply with Section 92 of the Town and Country Planning Act 1990.
3. The development hereby permitted shall be commenced within 2 years of the date of the approval of the last of the reserved matters.

3. Reason: To comply with Section 92 of the Town and Country Planning Act 1990, as amended.
4. The proposal is for up to 53 dwellings.
4. Reason: To allow for a design led approach in accordance with policies ENV1 and ENV2 of the East Cambridgeshire Local Plan 2015.
5. No development shall take place until details of the position and number of fire hydrants required has been submitted to and approved in writing by the local planning authority. The development shall be carried out in accordance with the agreed details, including any phasing arrangements.
5. Reason: To ensure the appropriate infrastructure is in place to ensure adequate public safety provision in accordance with Policies Growth 3 and ENV2 of the East Cambridgeshire Local Plan 2015. This condition is pre-commencement as it would be unreasonable to require the applicant to confirm these details until the principle of development has been established.
6. Construction times and deliveries, with the exception of fit-out, shall be limited to the following hours:

08:00 – 18:00 each day Monday – Friday

08:00 – 13:00 on Saturdays and

None on Sundays or Bank Holidays.
6. Reason: To safeguard the residential amenity of neighbouring occupiers, in accordance with policy ENV2 of the East Cambridgeshire Local Plan 2015 and LP22 of the Submitted Local Plan 2017.
7. Prior to any work commencing on the site a Construction Environmental Management Plan (CEMP) shall be submitted to and agreed in writing with the Local Planning Authority regarding mitigation measures for noise, dust and lighting during the construction phase. These shall include, but not be limited to, other aspects such as access points for deliveries and site vehicles, and proposed phasing/timescales of development etc. The CEMP shall be adhered to at all times during all phases.
7. Reason: To safeguard the residential amenity of neighbouring occupiers, in accordance with policy ENV2 of the East Cambridgeshire Local Plan 2015 and LP22 of the Submitted Local Plan 2017. The condition is pre-commencement as it would be unreasonable to require applicants to undertake this work prior to consent being granted.
8. No development shall commence until a surface water drainage scheme for the site, based on sustainable drainage principles, has been submitted to and approved in writing by the local planning authority. The scheme shall

subsequently be implemented in accordance with the approved details before development is completed.

The scheme shall be based upon the principles within the Flood Risk Assessment (FRA) and Drainage Strategy prepared by Peter Brett Associates (ref: 36783 FRA Rev B) dated July 2018 and shall also include:

- a) Full calculations detailing the existing surface water runoff rates for the QBAR, 3.3% Annual Exceedance Probability (AEP) (1 in 30) and 1% AEP (1 in 100) storm events
- b) Full results of the proposed drainage system modelling in the above-referenced storm events (as well as 1% AEP plus climate change) , inclusive of all collection, conveyance, storage, flow control and disposal elements and including an allowance for urban creep, together with an assessment of system performance;
- c) Detailed drawings of the entire proposed surface water drainage system, including levels, gradients, dimensions and pipe reference numbers
- d) Full details of the proposed attenuation and flow control measures
- e) Site Investigation and test results to confirm infiltration rates;
- f) Details of overland flood flow routes in the event of system exceedance, with demonstration that such flows can be appropriately managed on site without increasing flood risk to occupants;
- g) Full details of the maintenance/adoption of the surface water drainage system;
- h) Measures taken to prevent pollution of the receiving groundwater and/or surface water;

The drainage scheme must adhere to the hierarchy of drainage options as outlined in the NPPF and PPG.

- 8. Reason: To ensure that the proposed development can be adequately drained and to ensure that there is no increased flood risk on or off site resulting from the proposed development. The condition is pre-commencement as it would be unreasonable to require applicants to undertake this work prior to consent being granted.
- 9. Details for the long term maintenance arrangements for the surface water drainage system (including all SuDS features) to be submitted to and approved in writing by the Local Planning Authority prior to the first occupation of any of the dwellings hereby permitted. The submitted details should identify runoff sub-catchments, SuDS components, control structures, flow routes and outfalls. In addition, the plan must clarify the access that is required to each surface water management component for maintenance purpose. The maintenance plan shall be carried out in full thereafter.

9. Reason: To ensure the satisfactory maintenance of unadopted drainage systems in accordance with the requirements of para 103 and 109 of the NPPF AND ENV2 and ENV8 of the East Cambridgeshire Local Plan 2015 and LP22 and LP25 of the Submitted Local Plan 2017.
10. Prior to or as part of the first reserved matters application, an energy and sustainability strategy for the development, including details of any on site renewable energy technology and energy efficiency measures, shall be submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved strategy.
10. Reason: To ensure that the proposal meets with the requirements of sustainability as stated in policy ENV4 of the East Cambridgeshire Local Plan 2015 and LP23 and LP24 of the Submitted Local Plan 2017.
11. Prior to occupation a scheme of biodiversity improvements shall be submitted to and agreed in writing with the Local Planning Authority. The biodiversity improvements shall be installed prior to the first occupation of the hereby approved development and thereafter maintained in perpetuity.
11. Reason: To protect and enhance species in accordance with policies ENV1, ENV2 and ENV7 of the East Cambridgeshire Local Plan 2015 and LP28, LP22 and LP30 of the Submitted Local Plan 2017.
12. No development shall take place until an investigation and risk assessment of the nature and extent of any contamination on the site, whether or not it originates on the site, has been undertaken. The investigation and risk assessment must be undertaken by competent persons, and a written report of the findings must be submitted to and approved in writing by the Local Planning Authority. The report of the findings must include:
 - (i) A survey of the extent, scale and nature of contamination;
 - (ii) An assessment of the potential risks to: human health, property (existing or proposed) including buildings, crops, livestock, pets, woodland and service lines and pipes; adjoining land; groundwaters and surface waters; ecological systems; archaeological sites and ancient monuments;
 - (iii) An appraisal of remedial options, and proposal of the preferred option(s).

This must be conducted in accordance with DEFRA and the Environment Agency's 'Model Procedures for the Management of Land Contamination, CLR 11'. Any remediation works proposed shall be carried out in accordance with the approved details and timeframe as agreed in writing by the Local Planning Authority.
12. Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and

other offsite receptors, in accordance with policy ENV9 of the East Cambridgeshire Local Plan 2015 and LP26 of the Submitted Local Plan 2017. The condition is pre-commencement as it would be unreasonable to require applicants to undertake this work prior to consent being granted.

13. In the event that contamination is found at any time when carrying out the approved development that was not previously identified it must be reported to the Local Planning Authority within 48 hours. No further works shall take place until an investigation and risk assessment has been undertaken and submitted to and approved in writing by the Local Planning Authority. Where remediation is necessary, a remediation scheme must be submitted to and approved in writing by the Local Planning Authority. The necessary remediation works shall be undertaken, and following completion of measures identified in the approved remediation scheme a verification report must be prepared, and approved in writing by the Local Planning Authority
13. Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors, in accordance with policy ENV9 of the East Cambridgeshire Local Plan 2015 and LP26 of the Submitted Local Plan 2017.
14. No development shall take place within the area indicated until the applicant, or their agents or successors in title, has secured the implementation of a programme of archaeological work in accordance with a written scheme of investigation which has been submitted by the applicant and approved in writing by the local planning authority. For land that is included within the WSI, no development shall take place other than in accordance with the agreed WSI which shall include:
 - The statement of significance and research objectives;
 - The programme and methodology of site investigation and recording;
 - The nomination of a competent person(s) or organisation to undertake the agreed works;
 - The programme for post-exavation assessment and subsequent analysis, reporting, publication and dissemination, and deposition of the resulting archive. This part of the condition shall not be discharged until these elements have been fulfilled in accordance with the programme set out in the WSI. Developers will wish to ensure that in drawing up their development programme, the timetable for the investigation is included within the details of the agreed scheme.
14. Reason: To ensure that any archaeological remains are suitably recorded in accordance with policy ENV14 of the East Cambridgeshire Local Plan 2015 and LP27 of the Submitted Local Plan 2017. The condition is pre-commencement

as it would be unreasonable to require applicants to undertake this work prior to consent being granted.

15. No development shall take place until a scheme to dispose of foul water has been submitted to and approved in writing by the Local Planning Authority. The scheme(s) shall be implemented prior to occupation of the dwellings.
15. Reason: To prevent the increased risk of flooding and to improve and protect water quality, in accordance with policies ENV2 and ENV8 of the East Cambridgeshire Local Plan 2015 and LP22 and LP25 of the Submitted Local Plan 2017. The condition is pre-commencement as it is detailed as one of the model conditions.
16. Prior to first occupation the form and content of Welcome Travel Packs to be issued to new residents on the first occupation of each new dwelling shall be agreed with the Local Planning Authority. The Packs should encourage residents to travel using sustainable modes of transport and shall be provided to new occupiers of the development.
16. Reason: In order to encourage future residents to travel using sustainable modes of transport in accordance with Policy COM7 of the East Cambridgeshire Local Plan 2015.
17. Prior to the first occupation of any dwelling the road(s), footway(s) and cycleway(s) required to access that dwelling shall be constructed to at least binder course surfacing level from the dwelling to the adjoining County road in accordance with the details approved on Drawing Nos 36783_5501_SK02 B and CSA/3881/102 A, in writing by the Local Planning Authority.
17. Reason: In the interests of highway safety, in accordance with COM7 and COM8 of the Local Plan 2015 and LP17 of the Submitted Local Plan 2018
18. No development shall commence until details of the proposed arrangements for future management and maintenance of the proposed streets within the development have been submitted to and approved in writing by the Local Planning Authority. (The streets shall thereafter be maintained in accordance with the approved management and maintenance details until such time as an Agreement has been entered into unto Section 38 of the Highways Act 1980 or a Private Management and Maintenance Company has been established).
18. Reason: To ensure satisfactory development of the site and to ensure estate roads are managed and maintained thereafter to a suitable and safe standard, in accordance with policy COM7 of the East Cambridgeshire Local Plan 2015 and LP17 of the Submitted Local Plan 2018. The condition is pre-commencement as it would be unreasonable to require applicants to undertake this work prior to consent being granted.
19. No development shall take place until a detailed Arboricultural Method Statement (AMS) has been submitted and approved in writing by the Local Planning Authority. The AMS shall include justification and mitigation for any

tree removal proposed and details of how trees will be protected at all stages of the development. Recommendations for tree surgery works and details of any tree surgery works necessary to implement the permission will be required as will the method and location of tree protection measures, the phasing of protection methods where demolition or construction activities are essential within root protection areas and design solutions for all problems encountered that could adversely impact trees (e.g. hand digging or thrust-boring trenches, porous hard surfaces, use of geotextiles, location of site compounds, office, parking, site access, storage etc.). All works shall be carried out in accordance with the agreed AMS.

19. Reason: To ensure that the trees on site are adequately protected, to safeguard the character and appearance of the area, in accordance with policies ENV1 and ENV2 of the East Cambridgeshire Local Plan 2015 and LP22 and LP28 of the Proposed Submission Local Plan 2017. The condition is pre-commencement in order to ensure that the protection measures are implemented prior to any site works taking place to avoid causing damage to trees to be retained on site.
20. Prior to the first occupation or commencement of use of the development, details of replacement tree planting, including any trees for removal that can be moved to a suitable location with a tree spade, indicating positions or density, species, and planting size shall be submitted to and approved by the Local Planning Authority. Planting shall take place in accordance with the approved details within the first planting season following completion of the development or in accordance with the program of planting approved by the LPA. Any such trees that are removed die or become, in the opinion of the LPA, seriously damaged or defective within a period of five years of planting shall be replaced with specimens of a similar size and species as originally required.
20. Reason: To assimilate the development into its surroundings, in accordance with policies ENV1 and ENV2 of the East Cambridgeshire Local Plan 2015 and LP22 and LP28 of the Submitted Local Plan 2018.
21. All works shall be carried out in accordance with the Tree Survey, Arboricultural Impact Assessment [Hayden's Arboricultural Consultants dated 27th July 2018]. If, during construction, it becomes apparent that further works or changes are required, work shall not progress any further on site until the applicant has secured a site meeting with a suitably qualified professional to agree the details and phasing of any tree surgery works not detailed in the submitted report. A written schedule shall be submitted to and approved in writing by the Local Planning Authority.
21. Reason: To ensure that the trees on site are adequately protected, to safeguard the character and appearance of the area, in accordance with policies ENV1 and ENV2 of the East Cambridgeshire Local Plan 2015 and LP22 and LP28 of the Submitted Local Plan 2018.

22. Woodland Management Plan: Prior to completion or first occupation of the approved development, whichever is sooner, a Woodland Management Plan shall be submitted to and approved by the Local Authority. The Management Plan should be prepared by a qualified arboricultural/forestry consultant and include the following elements:
- A statement for the overall vision of the woodland as part of the development
 - Type and frequency of management operations to achieve a sustainable woodland
 - Frequency of safety inspections
 - Special measures relating to protected species or habitats
 - Special recommendations for trees located in close proximity to properties
 - Identification of any other proposed actions
22. Reason: To safeguard the character and appearance of the area, in accordance with policy ENV2 of the East Cambridgeshire Local Plan 2015 and LP22 of the Submitted Local Plan 2018.
- 23 In pursuant of Condition No 2, the design and layout of the site shall take into account the setting of the Conservation Area and key views across the site as detailed on Drawing No: CSA/3881/102
23. Reason: To safeguard the special architectural or historic interest, character and appearance and integrity of the Conservation Area, in accordance with policies ENV2 and ENV11 of the East Cambridgeshire Local Plan 2015 and LP22 and LP27 of the Submitted Local Plan 2018.
