

Planning Performance Report for September 2015

Currently Members are advised of the Planning Departments performance twice yearly. Members will be aware that the service is currently carrying out a review of its processes and procedures. Our objectives are as follows:

1. To contribute to the Council's growth agenda
2. To ensure customers receive a excellent, consistent and timely service, and,
3. To ensure that Members have confidence in the Planning Service and its processes and are kept appraised of the Teams performance on a regular basis

The Team will now provide the Committee with a short performance report every month which will be for noting only. The report will help to inform Members on the progress the team are making following the review.

All figures include all types of planning applications.
